Proposed Supplemental Report Language to Replace Proposed Assembly Trailer Bill Language

It is the intent of the Legislature that, prior to proposing any future In-Home Supportive Services (IHSS) anti-fraud activity, the Department of Social Services (DSS) report to the Legislature on (1) the estimated cost of the proposed anti-fraud activity and (2) the estimated savings associated with each activity. The Legislature further intends that DSS provide the Legislature with the basis for the assumptions made in their analysis.
